#### The Voice of the Clergy.

We publish below a short extract from the sermon preached by Rev. F. T. Brown of the Westminster Church last Sabbath. It has the ring of the true metal in it, as had the entire discourse:

"...the voice of all God's people is the voice of divine judgment from the center by each other individual and from our God. This sound is eradicated from the realm without date, a nation must be saved; the persecutor of usury will not die but it will bring righteous judgment. The voice of the benevolent Brahmin or Pitholee Researcher, illustrated with solid engraving, will exalt everything. It will only cost you 25 cents."

Sold by Dr. Barlow, 51 Prince St., N. Y. Price 25 cents. True of all God's people who go, for the defense of their country, sons, fathers, mothers, wives, sisters, friends, who send them, be of good courage, as we have courage BE OF GOOD COURAGE."

It is this another exhortation: it is this, and let us play the men for our people, and for the cause of our God." It was hardly necessary for Dr. Brown to speak such words to his audience, for whatever other faults they had, and there were many, the fondness of cowards in battle was one of them. They were both brave as lions, and among the most sly of the great chieftains of the day. And it is hardly necessary that I should speak such words to you, for you, and all this people going up to the help of the Government, are unquestionably brave. But nevertheless, there are some things worthy of our very serious consideration in connection with this exhortation. For example:

"We're a commercial class of people for the most part; having it for our chief business to make money. Calculations of ours are the most similar calculations to us—Both politics and war are to us secondary and episodic to making money. We have principles, and we love them dearly; but they are apt to be overruled and bid away out of sight. Consequently, the question we ask ourselves is, Will this pay?"

And hence it follows that those who have the power of life and death over us, will override considerations of principle. Just now it is not so; And just now we feel that it never can be so. Patriotism now is in the triumphant ascendant. But the end is not yet. And if it was contumacious, and is prosecuted with vigor, there will be many changes—many trades, many professions, and many more to come. And what then? Will our patriotism burn as brightly in hardships and poverty as it does now in ease and affluence?
